Son Sues for Right to Bury His Mother's Body

PHILADELPHIA, Sept. 15.—That he is denied the right to bury his mother's body is the unusual allegation in a suit begun yesterday by Halley E. Knox against Mrs. Esther Allen, Chenango and Shapiro streets. His mother died at the home of Mrs. Allen, the son avers, and when he made arrangements for the funeral Mrs. Allen refused to allow him possession of the body. He informed court No. 4 that Mrs. Allen is not a relative, and that his mother merely roomed in her house.

DANIELS PRAISES INLAND WATERWAYS

Emphasizes Their Importance in Times of War for Submarines.

PHILADELPHIA, Sept. 15.—Secretary of the Navy Daniels before the inland waterways convention here today, pleaded for a large American merchant marine, prophesied it would come, and praised the inland waterways development in this country. He spoke with approval of the Alaskan railway, the projected improvement of the Mississippi river, and the Sacramento river, and for improvement of inland waterways so that a submarine may travel through an inner passage from Boston to Key West.

He emphasized the importance of inland waterways by calling attention to the increased value of submarines and small auxiliary vessels as scouts and submarine catchers in naval warfare. These vessels, he said, now navigate in shallow water, and by using the inland passage along the coast can dart out against an enemy without warning.

Alkali Makes Soap Bad for Washing Hair

Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle. The best thing to use is just plain moistened coconut oil, for this is pure and entirely greaseless. It's very cheap, and beats the most expensive soaps or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months. Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy, and easy to handle. Besides, it loosens and takes out every particle of dust, dirt, and dandruff.—Advt.
